#### EXPLAINS U. S. PROSPERITY

Private initiative and the widespread use of mechanical power have brought about the present wonderful industrial prosperity of the United States. That is the conclusion of the British Electrical Review, leading industrial organ of Great Britain. Its own words are as follows:

"The high standard of living of all classes in the United States is evident to the most casual observer, and the recent, delegation of British Trade Unions saw that the reason lay largely in the extensive use of machinery and labor-saving devices and the initiative displayed in American business

"The rapid advance of the light and power industry in the United States is the envy of every foreign country, and the benefit of such a development is found in the solution of laber problems. If human beings are made the controllers of power instead of the generators, their earning power is so much increased as to make it possible to pay them not only a living wage, but a cultural wage.

"Private initiative is at the foundation of America's prosperity today and aithough there exist many Government agencies to protect the public against abuses, this is quite a different thing from Government ownership or subsidy."

#### A SWEEPING STATEMENT

"It has been proved," said a Philadelphia minister recently, "that 64 per cent of the young people of America are dishonest." This sweeping statement, indicating as it does some tens of millions of individuals, was based, he said, on "tests made by clerks in different stores."

Much depends upon the nature of the "tests", but more upon the way the speaker interpreted the results. It is possible that different tests made by different clerks on different young people might turn the alleged percentage upside down.

In any event if would seem hardly the part of discretion to apply the findings with one grand gesture to the whole youthful population of the United States. Honesty, strangely enough, has so many definitions, and its manifestations are of such varying importance that what was one man's sin might easily be another man's glory.

We make no pretense of knowing how many young people are "dishonest" in the ordinary sense of the word. If pressed for an estimate we should slide out by hazarding that the proportion is about as large now as it was when father was a boy.

And in those remote days it probably was about the same as when grandfather was a lad.

### TOLERATION

Curious signt, in any large American city: In a church on the corner, young people known as members of Christian Endeaver, hold a psalm service, attended by several thousand devotees. 'The hymn "Onward Christian Soldiers" resounds over noises of the street.

In the adjoining building, thousands of men and hundreds of women sit beside a squarred circle, familiar to prize fighters, and modern gladiators brought out in pairs to fight desperately amidst blatant cries of spectators.

The church-folk keep their own ends, gladiators likewise; neither disturb the other. Such is one of the fruits of modern democratic tendency, plant of exceedingly slow growth, at best. Not long ago, gladiators rushed on Christians, sprinkled oil on their bodies and lit them as living torches on poles by the Appian road.

After all, is there more to democracy than-toleration of opinion? Very little, we should say. You go your way, I go mine; neither interferes with the other; each is satisfied at what he is getting out of life.

But unfortunately, the better human understanding is still far off.

### THE FAMILY BUDGET

Our nation, states and political subdivisions have found making a budget of expenditures has helped solve many problems of administration. Every family should also learn to make a budget covering its principal items of expenditures, and among these, the support of some religious organization should not be amitted.

Every family would find a stimulating effect from being connected with some church organization, if only one member of the family belongs and attends.

In the same way, the family institution should carry in its budget a fixed appropriation for church support. The family needs the church and should regard it as a privilege to contribute a share in meeting the operating costs of the church of their choice.

"She is giving excellent characterizations in my Revue of 1926. But because it remembers her supreme impersonations of a spoiled infant the public is slow in greeting her equally fine work in other lines," Mr. Ziegfeld continues. "I intend to star Miss Dooley."

"Louise Brown sparkles with tar-dust. She is only seventeen. She was brought to Chicago to fill May Eaton's role in "Kid Boots." After three days of rehearsals she went on and made a tremendous impression. Granted star-uust, there must be material. That is the manager's business to find. I have seen stars rise and set. The reason for their setting is found in themselves. Not that they didn't possess enought stardust to keep them shining, nor that the manager did not supply material for their continuous burnishing. When stars flicker out after a few seasons and one sees nothing of them for five or six years, it is not because the manager has grown indifferent to their success, not that the public has been fickle. It is because they permit other interests to divide their time and thought and trength with the stage. That diision is fatal. I do not believe hat marriage and matrimony hinder stardom. Not if the marriage is a happy one.'

Adelaide chose the straight silhouette for her own this season, but Adelaide is wise. She knows that the straight silhouette has changed since last year-there's nothing straight about it except the outline.

That is, it's only the silhouette itself of the garment that is straight—the trimming lines do fascinating things. The slanting stripes of the first frock and the bands of stitching on this one illustrate the point nicely.

Just horizontal strips of the same material in annot until recently that I came ures of art that this man used to other color-but what a change they make in the The skirt is straight, too, but has pleats Boroke was a tall, dark haired A man is in his life and char- so that the straighteness is only there when one

#### LOOKING BACKWARD

Before me is a tattered and faded old copy of the Parkersburg Gazette, dated October 8, 1846. An announcement on the front page gives the information that the paper was devoted to "General Intelligence, Politics, Agriculture, Merality, Literature, Arts, Science, and Advertising." And not the least of these was advertising, I'll wager.

An editorial about "Female Education in Virginia" interested me greatly. It reads: "As to the education of the fair daughters of Virginia, parents are now, and have heretofore been almost criminally careless and indifferent. Should this

"I would say to you discard your apathy; abandon your false notions and false pride. Let the young women of Virginia know and feel that they are no longer to lead listless and inactive lives. It maters not if parents are wealthy, yet I do insist that you should instruct your daughters, so educate them that they may hold themselves in readiness for the casualties of life, and the vicissitude and waywardness for fortune. Drive away the false notion that too many have relative to dress.

"Pathers and mothers of Virginia! Upon you the responsibility rests. If the future mothers of old Virginia are brought up in idleness, forgetful of economy, what shall we expect of those who are to be the women of another generation?"

Th lowly potatoe's days were numbered, according to a way a writer from Ireland had it figured out. He wrote, "As an article of human food, the use of the potato seems likely to become extinct.... ultimate consequences can hardly fail to raise the condition of the Irish peasant and to improve his social habits. He will be raised in the scale of civilization by having a higher and more nutritious kind of food. There are those who contend the potato has been a curse and not a blessng to Ireland."

#### MARRIED NOW.

I guess I am A funny chap;

I stand so my wife Can't sit in my lap.

This talking of hearing Alaska, Mexico, Hamilton and other foreign places by radio reminds the old timer of the days when he considered it a miracle to hear a voice ten miles away over the telephone. You can phone your ads.

### Pile Sufferers

Can You Answer These Questions?

Do you know why ointments do not give you quick and lasting re-

Why cutting and operations fail? Do you know the cause of piles is internal? That there is a stagnation of

blood in the lower bowel? Do you know that there is a harmless internal remedy discovered by Dr. Leonhardt and known as HEM-ROID, now sold by

Sayre's Drug Store and druggists everywhere, that is guaranteed? HEM-ROID banishes piles by re moving the cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sick sufferers, and saves the needless pain and expense of an operation. Don't delay. Try HEM-ROID today. It

### Faulty Elimination

Should Be Corrected—Good Elimination Is Essential to Good Health.

IF you would be well, see to your elimination. Faulty kidney action permits toxic material to remain in the blood and upset the whole system. Then, one is apt to have a tired, languid feeling and, sometimes, a toxic backache or headache, and often some irregularity of secretions, such as scanty or burning passages. More and more people are acclaiming the value of Doan's Pills, a stimulant diuretic, in this condition. For more than forty years, Doan's have been winning favor the country over.

### To the Editor Of the Xenia Gazette:

During my absence in Pittsburgh last week, two articles appeared in the Xenia Gazette, with reference to the Elizabeth M. Lytle estate, one purporting to be a defense by R. L. Gowdy of his conduct as executor of said estate; the other being a reply thereto by the Cedarville Herald.

I have carefully read both statements, and wish to state that the facts as presented by the Cedarville Herald are the exact truth.

If there is an impression that R. L. Gowdy, as executor, claims that he has distributed all of the assets of the estate, that impression is erroneous. Judge Gowdy admits that he still has in his possession 40 shares, common and preferred stock of The Pure Oil Company, worth today the sum of \$2,406.40 with seven back dividend checks thereon.

These stock certificates were received by him in April, for delivery to the heirs, but have never been delivered, although repeated requests were made for them. Some weeks before the recent Primary election, Judge Gowdy stated to Kenneth Watt, who had come here from Pittsburgh, to obtain the certificates, that he would not turn them over until after the Primary, in view of an article that had appeared in the Cedarville Herald.

After the Primary, Judge Gowdy again refused to turn them over unless I signed, in addition to a receipt, a paper exonerating him so far as his conduct as executor is concerned, which I refused to do, in view of the fact that I have spent almost six years trying to get Judge Gowdy to settle this estate. He then threatened that he could have published an ar-

ticle reflecting on me and other members of my family. I still refused to sign, and he still has the stock and back dividends.

In his alleged defense in the Gazette of last week, he states that the delay in obtaining this stock certificates from The Pure Oil Company was due to the neglect of some one other than himself. In answer to which, I submit herewith a letter from The Pure Oil Company, to my attorney, dated June 22nd,

"THE PURE OIL COMPANY"

June 22nd, 1926.

"Dear Sir:-

We have your letter of recent date and upon investigation find that the 29 shares of common stock and 15 shares of 6% preferred stock was transferred out of the name of Elizabeth Lytle to Kenneth M. Watt and Bessie Benson the early part of April 1926, and the new certificates were forwarded with letter direct to Mr. R. L. Gowdy, Xenia, Ohio, under date of April 5, 1926. I am inclined to believe that he has received the same and probably misplaced them.

> Very truly yours, (Signed) E. H. Monroe, Stock Transfer Agent."

Children's bedtime has been made later by radio, parents write, and Detroiter contributes that "the Mills family" now goes to the 'movie" matinee on Sundays, "because we just can't miss the evening radio concert."

Sometimes the radio audience becomes peeved. Then its members "talk back" in harsh tones! "Don't sing 'At Dawning' or any of the other chestnuts which have been dinned into our ears until they are almost unbearable," protested a Chicagoan.

"Don't sing Eugene Field's fu-tile twaddle about 'Little Boy Blue," cried a New Yorker. "Please talk slow when announcing your name, as I keep a list of announcers that I like to listen to," wrote a girl.

Gratitude, however, is voiced by the radio audience more loudly than complaint. Entertainers, broadcast station engineers and program sponsors agree that they never miss the handclapping which

#### EXPLAINS U. S. PROSPERITY

Private initiative and the widespread use of mechanical power have brought about the present wonderful industrial prosperity of the United States. That is the conclusion of the British Electrical Review, leading industrial organ of Great Britain. Its own words are as follows:

"The high standard of living of all classes in the United States is evident to the most casual observer, and the recent, delegation of British Trade Unions saw that the reason lay largely in the extensive use of machinery and labor-saving devices and the initiative displayed in American business organization.

"The rapid advance of the light and power industry in the United States is the envy of every foreign country, and the benefit of such a development is found in the solution of labor problems. If human beings are made the controllers of power instead of the generators, their earning power is so much increased as to make it possible to pay them not only a living wage, but a cultural wage.

"Private initiative is at the foundation of America's prosperity today and aithough there exist many Government agencies to protect the public against abuses, this is quite a different thing from Government ownership or subsidy."

### A SWEEPING STATEMENT

"It has been proved," said a Philadelphia minister recently, "that 64 per cent of the young people of America are dishonest." This sweeping statement, indicating as it does some tens of millions of individuals, was based, he said, on "tests made by clerks in different stores."

Much depends upon the nature of the "tests", but more upon the way the speaker interpreted the results. It is possible that different tests made by different clerks on different young people might turn the alleged percentage upside

In any event it would seem hardly the part of discretion to apply the findings with one grand gesture to the whole youthful population of the United States. Honesty, strangely enough, has so many definitions, and its manifestations are of such varying importance that what was one man's sin might easily be another man's glory.

We make no pretense of knowing how many young people are "dishonest" in the ordinary sense of the word. If pressed for an estimate we should slide out by hazarding that the proportion is about as large now as it was when father was a boy.

And in those remote days it probably was about the same as when grandfather was a lad.

### TOLERATION

Curious signt, in any large American city: In a church on the corner, young people known as members of Christian Endeaver, hold a psalm service, attended by several thousand devotees. The hymn "Onward Christian Soldiers" resounds over noises of the street.

In the adjoining building, thousands of men and hundreds of women sit beside a squarred circle, familiar to prize fighters, and modern gladiators brought out in pairs to fight desperately amidst blatant cries of spectators.

The church-folk keep their own ends, gladiators likewise; neither disturb the other. Such is one of the fruits of modern democratic tendency, plant of exceedingly slow growth, at best. Not long ago, gladiators rushed on Christians, sprinkled oil on their bodies and lit them as living torches on poles by the Appian road.

After all, is there more to democracy than-toleration of opinion? Very little, we should say. You go your way, I go mine; neither interferes with the other; each is satisfied at what he is getting out of life.

But unfortunately, the better human understanding is

### THE FAMILY BUDGET

Our nation, states and political subdivisions have found making a budget of expenditures has helped solve many problems of administration. Every family should also learn to make a budget covering its principal items of expenditures, and among these, the support of some religious organization should not be emitted.

Every family would find a stimulating effect from being connected with some church organization, if only one member of the family belongs and attends.

In the same way, the family institution should carry in its budget a fixed appropriation for church support. The family needs the church and should regard it as a privilege to contribute a share in meeting the operating costs of the church of their choice.

"She is giving excellent characterizations in my Revue of 1926. But because it remembers her supreme impersonations of a spoiled infant the public is slow in greeting her qually fine work in other lines," Mr. Ziegfeld continues. "I intend to star Miss Dooley."

"Louise Brown sparkles with star-dust. She is only seventeen. She was brought to Chicago to fill May Eaton's role in "Kid Boots." After three days of rehearsals she went on and made a tremendous impression. Granted star-uust, there must be material. That is the manager's business to find. I have seen stars rise and set. The reason for their setting is found in themselves. Not that they didn't possess enought stardust to keep them shining, nor that the manager did not supply material for their continuous burnishing. When stars flicker out after a few seasons and one sees nothing of them for five or six years, it is not because the manager has grown indifferent to their success, not that the public has been fickle. It is because they permit other interests to divide their time and thought and trength with the stage. That dirision is fatal. I do not believe that marriage and matrimony hinder stardom. Not if the marriage s a happy one.

# For Itching Torture

Use Healing, Liquid Zemo

Zemo seldom fails to stop Itching Torture and relieve Skin Irritation, it makes the skin soft, clear and healthy. Itch, Pimples, Blotches, Blackheads, in most cases quickly give way to Zemo. Frequently, minor blemishes disappear overnight. Itching usually stops promptly. Zemo is a safe, healing liquid. Convenient to use any time. All druggists—60c and \$1.00.

"You know," says Arthur O' Malley, Carson Hill, Cal., "I would like you to broadcast this. I suffered from kidney and rheumatic trouble, but less than two bottles of Foley Pills, diuretic, relieved mentirely, and I want other sick people to know about them." Foley Pills, a diructic stimulant for the kidneys, are a reliable valuable medicine, constantly in use over 25 years. Try them for backaches, rheumatic pains and swellings; for rheumatic pains and swellings; for dull headcahes, nervousness, "tired-out" feeling, and disturbed sleep.

"Not Possible To Classify"

#### LOOKING BACKWARD

Before me is a tattered and faded old copy of the Parkersburg Gazette, dated October 8, 1846. An announcement on the front page gives the information that the paper was devoted to "General Intelligence, Politics, Agriculture, Morality, Literature, Arts, Science, and Advertising." And not the least of these was advertising, I'll wager.

An editorial about "Female Education in Virginia" interested me greatly. It reads: "As to the education of the fair daughters of Virginia, parents are now, and have heretofore been almost criminally careless and indifferent. Should this

"I would say to you discard your apathy; abandon your false notions and false pride. Let the young women of Virginia know and feel that they are no longer to lead listless and inactive lives. It maters not if parents are wealthy, yet I do insist that you should instruct your daughters, so educate them that they may hold themselves in readiness for the casualties of life, and the vicissitude and waywardness for fortune. Drive away the false notion that too many have relative to dress.

"Pathers and mothers of Virginia! Upon you the responsi-bility rests. If the future mothers of old Virginia are brought up in idleness, forgetful of economy, what shall we expect of those who are to be the women of another generation?"

Th lowly potatoe's days were numbered, according to a way a writer from Ireland had it figured out. He wrote, "As an article of human food, the use of the potato seems likely to become extinct.... ultimate consequences can hardly fail to raise the condition of the Irish peasant and to improve his social habits. He will be raised in the scale of civilization by having a higher and more nutritious kind of food. There are those who contend the potato has been a curse and not a blessng to Ireland."

#### MARRIED NOW.

I guess I am A funny chap; I stand so my wife Can't sit in my lap.

This talking of hearing Alaska, Mexico, Hamilton and other foreign places by radio reminds the old timer of the days when he considered it a miracle to hear a voice ten miles away over the telephone. You can phone your ads.

## **ARTISTS PAINTED** LIBRARY SLOGANS

Backers of the proposed District Library plan are urging Greene Countians to note the delivery wagons bearing the library slogans. The work of R. H. Kingsbury and Lehow Little may be recognized in the banners.

Many of the signs have been prepared by a committee of artists under the direction of Mrs. A. C. Messenger. The banner, which was placed on the prizewinning float at the Greene County Fair, from which a polar bear called out "Bear in mind the Greene County Library," designed by Mrs. Messenger, formed a part of the Yellow Springs Carnival and will be carried in the Mardi Gras at Osborn this week.

A mother soon learns to choose those simple, safe family remedies that she knows can be safely and wisely given the children. Foley's Honey and Tar Compound has ever been the favorite cough medicine of careful mothers. It contains no of careful mothers. It contains no chloroform, no opiates, and the list of ingredigents is plainly printed on the package. Children like it and it checks chilly feverish colds, stops coughs, group (spasmodic), bronchiai coughs, whooping cough, and annoying night coughs. Mothers accept only Foley's Honey and Tar, the safe reliable family cough medicine.

# The Sutton Twins Get Sore! Issues Ultimatum!

For the last three weeks NOTHING has been said about the automobiles which the Sutton Twins have been selling. The situation was brought about more or less by the Sutton's themselves as they declined to be interviewed or bothered by advertising men.

Last week, however they sorta woke up and they hollered their heads off for space here in the paper! In order to keep them quiet I decided that I would let them state in as few words as possible what they had been doing for the last few weeks. The following is their statement:

"The Nagley Bros. Funeral Directors now have their fourth Studebaker in service. SOME one is either being kidded or us Sutton Boys are mity good salesmen!

"Carl E. Fent, Bus Line operator extraordinary, has his seventh Studebaker, the last one being a 23-passenger affair which we lately sold him. ANOTHER man gone wrong I suppose!

"Russell Stevens, retired business man and a great believer in gold coin got measured for a custom built 5-passenger sedan couple days ago. HE too, could have bought ANY ole car he wanted—if he'd a WANTED to!

"We have no more to say on the subject.

Yours truly. THE SUTTON TWINS"

What Beal's New Diet Has Done For HIM! I wish to state that in spite of everything I could say or do there were a large number of Rosenthal Huskers, sold last week

thereby causing me a great deal of extra work in assembling, much worry in making out the papers and in several OTHER ways displeasing me greatly! "Geo. List out at Dayton 8 bought a Steel 4 Husker as also did Albert Young, Osborn 8, Hook Bros., Pt. William, while A.

# Pile Sufferers

Can You Answer These Questions?

Do you know why ointments do not give you quick and lasting re-lief?

Why cutting and operations fail? Do you know the cause of piles is internal?

That there is a stagnation of blood in the lower bowel? Do you know that there is a harmless internal remedy discovered by Dr. Leonhardt and known as HEM-ROID, now sold by Sayre's Drug Store and druggists

everywhere, that is guaranteed? HEM-ROID banishes piles by re moving the cause, by freeing blood circulation in the lower bowel. This simple home treatment has an almost unbelievable record for sure, safe and lasting relief to thousands of pile sick sufferers, and saves the needless pain and expense of an operation. Don't delay. Try HEM-ROID today. It will do the same for you. -Adv

Never well. Always tired and fagged out. Beauty tossed away by neglect. To be beautiful and to keep youth the system must be free from poisonous backwash of constipation which often causes dizzy spells. For 20 years, Dr. F. M. Edwards gave his patients, in place of calomel, a compound of vegetable ingredients mixed with olive oil, naming them Dr. Edwards' Olive Tablets. Known by their olive color. They free the system of poisons that ravage health, energy, beauty.

health, energy, beauty.
You need never have sallow complexion, dull eyes, coated tongue, throb-bing headaches—all signs that your bowels are clogged, liver is torpid. Take Dr. Edwards Olive Tablets nightly. They act smoothly and without grip-ing... How much better you'll feel and look! Everywhere wise men and women who know the value of good health take Dr. Edwards' Olive Tablets. All druggists, 15c, 30c and 60c.

### Faulty Elimination

Should Be Corrected—Good Elimination Is Essential to Good Health.

IF you would be well, see to your elimination. Faulty kidney action permits toxic material to remain in the blood and upset the whole system. Then, one is apt to have a tired, languid feeling and, sometimes, a toxic backache or headache, and often some irregularity of secretions, such as scanty or burning passages. More and more people are acclaiming the value of *Doan's Pills*, a stimulant diuretic, in this condition. For more than forty years, Doan's have been winning favor the country over. ### To the Editor Of the Xenia Gazette:

During my absence in Pittsburgh last week, two articles appeared in the Xenia Gazette, with reference to the Elizabeth M. Lytle estate, one purporting to be a defense by R. L. Gowdy of his conduct as executor of said estate; the other being a reply thereto by the Cedarville Herald.

I have carefully read both statements, and wish to state that the facts as presented by the Cedarville Herald are the exact truth.

If there is an impression that R. L. Gowdy, as executor, claims that he has distributed all of the assets of the estate, that impression is erroneous. Judge Gowdy admits that he still has in his possession 40 shares, common and preferred stock of The Pure Oil Company, worth today the sum of \$2,406.40 with seven back dividend checks thereon.

These stock certificates were received by him in April, for delivery to the heirs, but have never been delivered, although repeated requests were made for them. Some weeks before the recent Primary election, Judge Gowdy stated to Kenneth Watt, who had come here from Pittsburgh, to obtain the certificates, that he would not turn them over until after the Primary, in view of an article that had appeared in the Cedarville Herald.

After the Primary, Judge Gowdy again refused to turn them over unless I signed, in addition to a receipt, a paper exonerating him so far as his conduct as executor is concerned, which I refused to do, in view of the fact that I have spent almost six years trying to get Judge Gowdy to settle this estate. He then threatened that he could have published an ar-

ticle reflecting on me and other members of my family. I still refused to sign, and he still has the stock and back dividends.

In his alleged defense in the Gazette of last week, he states that the delay in obtaining this stock certificates from The Pure Oil Company was due to the neglect of some one other than himself. In answer to which, I submit herewith a letter from The Pure Oil Company, to my attorney, dated June 22nd,

We have your letter of recent date and upon investigation find that the 29 shares of common stock and 15 shares of 6% preferred stock was transferred out of the name of Elizabeth Lytle to Kenneth M. Watt and Bessie Benson the early part of April 1926, and the new certificates were forwarded with letter direct to Mr. R. L. Gowdy, Xenia, Ohio, under date of April 5, 1926. I am inclined to believe that he has received the same and probably misplaced them. Very truly yours,

wanted data on tobacco-growing, and on the life on Cuban farms. He had heard that the women did n't have much of a time out there away from cities.

'You can bet that Mrs. James Andover will do exactly as she pleases," said his wife.

"Queer-looking man, her bailiff!" was Luella's comment. "Sort of sly "California Fig Syrup" can't and foxy, wasn't he?"

The Wades, with Mary Forrest and herself, went out by motorcar the following afternoon, taking suitcases for a brief stay.

It proved to be a very pretty There were rich pasture lands with well-conditioned cattle. The tobacco fields had many workers in quaint garb.

The farm-house or hacienda, was in Spanish style, long, low and rambling. It was built in rectangular style, and its three sides opened on a courtyard, tiled. The servant's quarters were farther off hidden among the flambeau tres.

Mary's room was long and lowceilinged. It gave on the cheerful patio or courtyard, and it had another window at its far end, opening on the meadows. Rather a bare room, with whitewashed walls -but flowers were set in every possible nook and corner of it.
